LB Ref	Address	Description	Grade	Date Listed
81379	Holy Trinity Church Church View Clifton Derbyshire	<p>Parish church. 1845 by Henry Stevens of Derby. Apse and bell turret 1868 by Slater & Carpenter. Coursed squared rock faced sandstone with sandstone dressings. Chamfered plinth and moulded eaves band. Banded plain and fishscale tile roofs. Stone coped gables, cross finial and octagonal corbelled out bell turret, with pyramid roof, on the west gable. Nave and south porch, two north vestries and chancel with canted apse. Gabled south porch with diagonal buttresses and entrance with two orders of shafts and moulded arch. To the left, a lancet window with trefoil head and hood- mould. To the right are three 2-light windows with plate tracery and hoodmoulds. Buttresses between. The Chancel has to the south and north a 2-light window with geometrical tracery and a larger 3-light window and geometrical tracery to each face of the canted apse. Moulded stringcourses linking the sills and hoodmoulds. The north side of the nave has a vestry with hipped roof, circular chimney stack, diagonal buttresses and three single lancets to the north. Then two 2-light windows corresponding to those on the south side, with a buttress between. Then a gabled vestry with tall chimney stack, diagonal buttresses and a single trefoiled lancet to north. Finally a trefoiled lancet corresponding to that on the south side. The eastern-most windows of the nave are enriched with a roll moulding. The west elevation has two tall trefoiled lancets either side of a buttress and a wheel window in the gable. Double chamfered south doorway and plank door with scrolled iron hinges. The nave has an open arch-braced collar roof. Double chamfered chancel arch on rich foliage capitals and shafts with shaft rings</p>	II	12/07/1985
