Dear Sirs Have you taken into account the narrow already dangerous road you are planning to build more houses on. The bend from the A6 onto Old Hackney lane seems to be used by vehicles racing up the lane. I live on Darley House Estate and almost daily get cars almost going into the back of me coming off the A6. Its always been busy but its got so much worse. One of your representatives needs to stand outside Milner 4 x 4 garage that is now for sale and see with their own eyes how fast the cars race up Old Hackney Lane. No doubt no one has any intention of doing so because if they did they would within minutes see how dangerous it is already. Something needs to be done about it . Building more houses is not the answer. Let me know your thoughts on the speed of traffic if you actually bother to stand and watch it.
