Darley Dale Neighbourhood Plan Consultation

Q6 Please give details of your reasons for support/opposition, or make other comments here:

As it stands, the plan probably conforms to statutory requirements, but I think it's weak on an imaginative long-term vision for Darley Dale. Planners may say that the following suggestions are beyond their remit, but I'd argue that there's much here to create a dynamic framework that is absolutely necessary and can at the same time enthuse our residents.

1. There could be mention of how new housing will require infrastructure improvements such shops, doctors, pubs, community halls and consideration given to how these may be imaginatively realised.
2. There could be specific mention on how leisure facilities will be created or improved, for example bike tracks, kids' playgrounds, recreation grounds, public footpaths, public space, public art.
3. There could be detailed proposals on improvements to road safety. For example how can roads be made safer for people and for cyclists? Where can traffic be calmed? How are we to build an infrastructure of electric cars?
4. How can the public transport infrastructure be improved and developed, in particular to cater for new housing?
5. And finally, and for me more parochially, how can Old Hackney Lane be made safe for all road users, with the introduction of traffic calming measures on dangerous corners, speed limiters and measures to protect pedestrians?

Re the consultation process - I'd like to know what steps were taken to involve young people in the process - after all, this will be their Darley Dale.

Q10 Please give details of your reasons for support/opposition, or make other comments here:

This section of the plan is very weak, given the new housing developments that are on the way. See my earlier comments.
