Picking-Out (for Shopfronts):

A number of shop fronts have mouldings and details that have, historically, been picked-out with a different colour. Such elements are mouldings to doors and pilasters, parts of console brackets and fascia details. Traditionally, picking-out colours were chosen to harmonise and complement the principal shop front colour rather than make a visual contrast to it.

Paint colours for picking-out:

Dulux Heritage Range	Farrow & Ball Range	Little Greene & English Heritage Range	British Standard (4800) Range	Dulux Trade Colour Palette Range
			10 B 15	45 YY 75/110
DH White DH Linen Colour	Tallow 203 White Tie 2002 New White 59	Whitening Lead White 50s Magnolia	08 B 15	25 YY 85/108 28 YY 86/106

A further colour that may be used for picking-out is metallic gold paint. This should be a proper *metallic* paint and not a gold-coloured paint.

The Local Planning Authority would consider other picking-out colours that were chosen from the joinery work paint colours (above) where these both harmonise and complement the principal chosen colour. Lighter shades/hues of those colours in the joinery work table will also be considered for picking-out where those colours both harmonise and complement the principal chosen colour.

Paint colours for bay windows for South Parade and North Parade:

Colours for the bay window structure (*excluding* the sliding sash windows)

Dulux Heritage Range	Farrow & Ball Range	Little Greene & English Heritage Range	British Standard (4800) Range	Dulux Trade Colour Palette Range
Brunswick Green	Studio Green 93 Carriage Green 94 Trust Green 35	Dark Brunswick Green Dark Bronze Green	14 C 40	
Deep Green	Minster Green 224	Mid Brunswick Green Mid Bronze Green	14 C 39	90 GY 10/250
Invisible Green		Invisible Green Chocolate Colour	10 B 29, 12 B 29	90 YY 07/093
Oxford Blue			20 C 40	
Antwerp Blue	Hague Blue 30 Bible Black 225		18 C 39	70 BG 07/086
Maroon	Brinjal 222	Purple Brown		72 RR 05/147
Crimson	Eating Room Red 43	Bronze Red	04 D 45	99RR 07/325
Dark Brown	Mahogany 36	Spanish Brown	08 B 29	48YR 06/091
			18 B 29	

The Local Planning Authority would consider the painting of a bay window structure in a lighter colour (see table below) together with the sliding sashes also painted in the same colour.

Paint colours for the sliding sash windows to bay windows and other sliding sash windows (South Parade and North Parade):

Dulux Heritage Range	Farrow & Ball Range	Little Greene & English Heritage Range	British Standard (4800) Range	Dulux Trade Colour Palette Range
			10 B 15	45 YY 75/110
DH White DH Linen Colour	Tallow 203 White Tie 2002 New White 59	Whitening Lead White 50s Magnolia	08 B 15	25 YY 85/108 28 YY 86/106

The Local Planning Authority would consider the two-tone painting of sash windows where the sash box and frame is painted a darker colour and the sliding sashes are painted in off-white or light cream. In general the darker colour should be the same colour as chosen for the shopfront.
