81311	1 To 3 Brookside Cottages Cacklehill Lane Snelston Derbyshire DE6 2EP	Row of three cottages. Mid C19 with minor C20 alterations. Red brick with brick dressings and plain tile roofs with decorative bargeboards, ridge finials and pendants, plus three brick ridge stacks with stone banded diamond set pots and a dentilled eaves cornice. Two storeys, five bays with advanced central gabled bay, flanked by advanced single bay, single storey lean-to projections. Central bay has bracketed porch roof with bargeboards and C20 glazed door below. To either side are tall 2-light cross windows with four-centred arch lights and brick hoodmoulds. Beyond, to either side in single storey projections, are 3-light mullioned windows, also with four-centred arched lights and brick hoodmoulds. Similar 3-light windows to far east and west. Above in central bay, a similar 3-light window with bracketed hood over and to either side pairs of similar 2-light windows. Included for group value only.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81312	The Old Post Office Church Lane Snelston Derbyshire DE6 2EP	House. c1828 by L N Cottingham. Red brick with stone dressings and quoins, and applied timber studding to upper storey, Stone slate roofs with wide overhanging eaves and brick gable stack with diamond set pots. Three bays, single storey plus attics, with. single bay, single storey side wings to either side. Advanced central gabled bay with raised quoins and four-centred brick arch with studded wooden door behind. To either side, 4-light mullioned window with four-centred arched lights, incised spandrels, brick sills, and drip moulds. Similar 2-light windows in recessed side wings. Above to centre, a jettied gable with curved and diagonal timber studding and a 2-light mullioned window, similar to those below with an applied wooden Maltese cross over. To either side, in gabled dormers supported on bracketed stone sills, similar 3-light windows, both with curved braces over. All fenestration C19 patterned light metal casements.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81313	School House Farm Church Lane Snelston Derbyshire DE6 2EP	<p>Farmhouse and attached barn, now one house. C17 and early C19 with C20 alterations. Sandstone ashlar with sandstone dressings and plain tile roof with stone coped gables and moulded kneelers, plus stone gable stacks, that to east with two square stone pots and that to west with four similar pots. Three bay house and two bay barn, both two storeys, but barn slightly lower. House to east has gabled stone porch with chamfered four-centred arch covering C20 studded wooden door. To either side 2-light chamfered mullion windows with patterned metal casements. Similar window to west, Above, three similar windows. Attached to west former C17 barn, now part of the house, which has a projecting square bread oven to east with 2-light casement window to west, similar to those to house. Beyond to west, two stepped buttresses and C20 2-light chamfered mullion window with single pane fixed lights. Above, two similar but deeper windows. Listed for Group Value.</p>	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81314	St Peters Church Church Lane Snelston Derbyshire	<p>Parish church. Early C15, rebuilt except for tower in 1825 and with major alterations in 1907 by Hodgson Fowler. Sandstone ashlar, and slate roof with stone coped gables, topped by ridge crosses. Deep plinth all round building with moulded copings to tower, chamfered top elsewhere. Nave with north aisle and slightly lower chancel with north vestry and chapel, two stage tower to west end of north nave aisle. Gabled west elevation of nave has central deeply moulded four-centred arched doorcase with crocketed ogee head and stepped C14 style crocketed side pilasters. Above figure of saint in crocketed gabled niche with crocketed side pilasters, and above again, a rose window in chamfered surround. Recessed to north is C15 tower which has full height stepped diagonal buttresses to northern corners, and to west a 2-light four-centred arched mullioned window with pointed lights, set in deep chamfered surround and with hoodmould over, with carved labelstops. Above is a clockface, similar clockface to east side. Above again, four-centred arched Y-traceried louvred bell openings, set in chamfered surround with hood- mould over with finely carved labelstops. Similar bell openings to other sides. Moulded stringcourse over and embattled parapets with ridgeback copings, crocketed corner pinnacles and corner gargoyles. North elevation has small pointed window to base of tower and bell opening above. Beyond to east, nave aisle with flat headed 3-light north window, set in cavetto moulded recess, with trefoil headed lights and incised spandrels. Projecting bay beyond to east with four-centred arched cavetto moulded doorcase with flat hood to west and flat headed 3-light window with pointed lights and incised spandrels to east side. North chapel to east has flat headed cusped 2-light panel tracery window and beyond north vestry has ogee headed doorcase to north and adjoining cusped pair of lancets to east elevation. East window is 3-light with reticulated tracery and hoodmould. South</p>	IISTAR	13/09/1967

		<p>chancel elevation has one single light and one 2-light flat headed cusped ogee traceried window with pierced spandrels, that to west 2-light. Nave elevation to east has stepped buttress to east corner, and to west three 3-light flat headed windows with trefoil headed lights and pierced spandrels, linked by continuous hoodmould. To west, two shallower flat headed 2-light windows with pointed lights and pierced spandrels, one above the other. All openings to nave and south elevation of chancel of 1907. Interior has three bay C19 north arcade with octagonal piers, moulded capitals and double cavetto moulded arches, to west end of which is the base of the tower with tall double chamfered arches to east and south side. Chancel arch also has double chamfered arch, with soffit supported by two moulded corbels. North chapel has continuous moulded pointed western arch and a chamfered flat arch through to the chancel. All roofs date from 1907 and all but north chapel roof are barrel vaulted Both the north chapel and the chancel roofs have additional ribs and carved bosses, and are painted. Chapel and chancel also both have carved wooden screens to west and in the arch between. Chancel is completely painted with carved oak reredos and panelling to east, plain choir stalls with fleur de lys poppyheads and carved pulpit to south. West end of church has wooden organ gallery with screened entrance lobby below. Gallery has painted coats of arms to east side. To north, tower has small four-centred arched doorcase to stair turret in north-west corner and to centre a circular C13 font on C19 base, covered by C19 or early C20 weighted font cover. Plain C20 nave pews. Wall memorials mostly early C19 of slate with white marble surrounds, but there are also two brass memorials with green marble surrounds to the Harrisons of Snelston Hall, and one white marble one of 1699 to Sara, daughter of Robert Docksey, wife of Francisci Evans. Tower also has brass charity plaque of 1805 inscribed with 'Bolds</p>

		Annual Donations'. West tower window with stained glass by W Tower, east window has similar style stained glass. North chapel window of 1949 by Nuttgens. Listed for Group Value.		
81315	Snelston Hall Snelston Derbyshire DE6 2EP	Two pairs of gate piers with connecting walls. c1828 by L N Cottingham. Sandstone with timber and iron gates. Pair of curving walls, stepped up to either end near piers, with bolection moulded copings. To Centre a pair of octagonal piers with octagonal ogee finials on tapering stems. Each side of the piers has a long thin niche studded with small spheres. Piers to other ends also octagonal, but plain with moulded cornices above, surmounted by large tops made up of tapering octagonal base with upturned ogee octagonal finial above, linked by moulded band. Gate between the two central piers is a timber grid with lowest two rows filled by timber panels and upper two rows filled by decorative metal work. Listed for Group Value.	II	19/07/1985
81316	Church Lodge Church Lane Snelston Derbyshire DE6 2EP	Lodge cottage. c1828 by L N cottingham. Painted brick with applied fanciful timber studding. Steeply pitched stone slate roof with wide overhanging eaves, supported by large pierced brackets, cusped wavy pierced bargeboards and central rendered ridge stack with decorated pots. Single storey plus attics and two bays. West elevation has long gabled porch with very elaborate bargeboards, zigzagged semi-circular arch to front and open sides with turned baluster rails to sides and front. To west, an advanced gabled bay with canted oriel window under sloping slate roof. Casement windows to all sides with fixed diamond leaded lights over high transoms. North gable wall has false bracketed oriel attic window with leaded lights, whilst south wall has canted bay window through two floors. Listed for Group Value.	II	19/07/1985

81317	Snelston Hall Snelston Derbyshire DE6 2EP	<p>Courtyard of stables, now house with attached outbuildings and stableblock. Mid C19, built by the Harrisons of Snelston Hall, converted c1950 and enlarged c1975. House in sandstone, attached buildings in red brick, both with stone dressings. Plain tile roofs, that to the house hipped with brick ridge stacks and one stone side wall stack to south, those to outbuildings and stableblock with diamond set brick stacks and stone coped gables with moulded kneelers. House has plinth, plain first floor band and coved eaves cornice. House has seven bays and is of two storeys, whilst attached buildings are single storey. West side of former quadrangle now mostly demolished, house to east, stableblock to south and outbuildings to north, with stumps of western range attached to north and south, each with iron columned arcades to east sides. House has three central, four-centred arches with square piers to central one, behind which is central four-centred arched door with flanking four-centred arched windows. To either side of the arches are two tall 2-light recessed and chamfered mullion and transomed windows with small pane metal lights. Above, seven 2-light recessed and chamfered mullion windows with metal casements. Rear wing of c1975 in similar style. Inside many re-used features from Cottingham's Hall, ie: carved panelled doors, cusped wooden staircase, Gothic type fireplaces and elaborately carved curtain pelmets. Attached to either side of house single storey wings with metal casements in stone surrounds linking with north and south ranges. Both ranges have central gabled bays with four-centred brick archways with stone lancets above. North range has four metal casements in chamfered stone surrounds to east and two similar to west, whilst southern range has three to east and two to west. To west end of each range is a single bay of the former western range with low brick walls attached, each with brick piers to end surmounted by elaborately decorated urns. Listed for</p>	II	19/07/1985

81319	The Boat House Snelston Hall Snelston Derbyshire	Boat house with summer house over. 1907, probably by P Lockwood, for the Stantons of Snelston Hall. Rendered stone with stone dressings and plain tile roof with external rendered gable stack to east and central gable with finial and pendant. Single bay and single storey plus basement, Boat house below has semi-circular rusticated arch with central rusticated pier dividing to form a Y near the top. Above, the summer house has pointed glazed double doors with hoodmould above and across the lower half of the doors is a balcony. Above is a gable with diamond shaped date- stone inscribed '1907'.	II	19/07/1985
81320	Fountain Ruins Of Former Snelston Hall Snelston Derbyshire	Fountain. c1828 by L N Cottingham. Sandstone. Octagonal in plan with extra small semi-circular shaped lobes to four sides, to centre a tall moulded pier. Walls to base are approximately 2 feet high and moulded to exterior. Central pier is octagonal with frieze of shields over the water level. Above this the pier splays outwards and the cornice over has carved heads to each side, with lead pipes in their mouths, from which water flowed. Above again, a shallow base which formerly supported a large basin, which has now disappeared. Listed for Group Value.	II	13/09/1967

LB Ref	Address	Description	Grade	Date Listed
81321	Ruins Of Former Snelston Hall Snelston Derbyshire	<p>Formerly listed as 'The Hall' Ruined remains of large Neo-Gothic house with attached walls and gateways. c1828 by L N Cottingham for the Harrisons, mostly demolished in 1951. Sandstone and brick with stone dressings. One wall of the former hall survives with courtyard to north, surrounded by stone walls, which in turn link up to gateway to north, west and garden walls with gates which encompass the site of the former hall. The remaining wall of the hall comprises a tall blank stone wall with towers to either end, continuous stringcourse near top and embattled ridgeback coped parapets over. Western tower has stone basin to base, set in basket headed niche with gargoyle head, from which water spouted. Above is an ovolo moulded lancet in recessed flat headed surround with incised spandrels. Over stringcourse above is a 3-light recessed and chamfered mullion window with ogee headed lights and pierced spandrels, in flat headed surround with hoodmould over. Corbelled embattled parapets over with extra corner turret to east, again with embattled parapets. East tower has double lancet in flat headed surround and above a 2-light window with ogee lights similar to those on western tower, plus corbelled embattled parapets above. Attached to north side of wall a brick lean-to with central stone coped gable bay and stone mullioned windows, Also attached are plain stone walls running round courtyard, of which the west wall links to gateway with large four-centred arch with corbelled barrel vault and small similar arch to north, both with Gothic panelled gates. To south of gateway is thin circular tower with embattled parapets. A walkway runs over the gateway and along the west wall to the tower. Attached to south side of gateway is the original garden wall with ridgeback copings, which runs southwards and connects to a similar wall to east by a retaining wall running in front of the former hall. Approximately 4 metres south-west of the west tower is a gate in the wall with central four-centred arch,</p>	II	10/08/1951

		surmounted by corbelled ridgeback copings and flanked by columns with circular embattled tops and incised arrow slits. In the section of wall that runs to the east side of the former hall are two pairs of gates, each with circular columns, topped by pyramidal copings and with original gates between. These are made up of a timber grid with panels of decorative ironwork to the top. Listed for Group Value.		
81322	Icehouse Snelston Hall Snelston Derbyshire	Icehouse. c1827, designed by L N Cottingham, Red brick with stone copings. Circular well, 4+ metres in diameter and depth, constructed with large cavity wall. 30 inch cavity capped to top with large stone slabs. Entrance through top of dome, at ground level, with stone surround, and formerly with hinged wooden doors. Original design by Cottingham held in Record Office at Derbyshire-County Council.	II	19/07/1985
81323	Brookside Cottage Church Lane Snelston Derbyshire DE6 2EP	House. c1840 with C20 addition. Red brick with applied timber studding and brick dressings. Steeply pitched plain tile roofs with wide overhanging eaves, decorated with wavy bargeboards. Large brick gable stacks with triple and twin diamond set pots. Single storey plus attics with lower bays to sides. Three bays with single bay additions, that to north C20, and central gabled bay. Central open timber framed porch with decorative bargeboards to gabled roof, over studded wooden door. To either side 3-light casement windows under four-centred moulded brick arches. Beyond, to either side in additional bays, single light windows under similar arches. Above, three 2-light casements, also under moulded brick four-centred arches. Central one in gabled bay, those to either side in gabled dormers with decorative bargeboards. Listed for Group Value.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81324	1 And 2 School Cottages Church Lane Snelston Derbyshire DE6 2EP	School and schoolmaster's house, now a pair of cottages. 1849, built for the Harrisons of Snelston Hall. Red brick with sandstone dressings and steeply pitched banded plain and fishscale tile roof with stone coped gables, moulded kneelers and ridge finials. Large external side wall stacks to either cottage, with stone dressings and diamond set pots. Single storey, plus attics in gabled bays. Each cottage two bays. Plan has tall advanced gabled crosswings to either side of single storey range. Each gabled bay has diagonal buttresses to corners and a central 3-light chamfered mullion window. Between, the recessed central wing has a chamfered four-centred brick arch to east with stone imposts, a central 2-light chamfered mullion window with segment headed lights set in four-centred arched brick surround, and to west a chamfered four-centred arched doorcase with studded wooden door. Above is a stone stringcourse with low parapet over. Above in each gabled bay are two 2-light mullion windows with segment headed lights under flat stone lintels, and a chamfered brick lancet for ventilating the attics to the top of the gable. All fenestration C19 patterned metal lights. Included for group value only.	II	19/07/1985
81325	Old Queen Farm Cockshead Lane Snelston Derbyshire DE6 2DP	Farmhouse. Late C18 with C20 additions and alterations. Red brick with rendered gable walls, painted brick dressings with stone sills and shallow pitched plain tile roof with brick gable stacks, also dentilled brick eaves cornice. Two storeys plus garrets and three bays. Central C20 brick gabled porch with four-centred arched doorcase and C20 plank door. To either side, 3-light casement windows under header and stretcher brick segment heads. Above, three similar 2-light casement windows. Segment headed garret windows in gable wall.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81326	War Memorial Church Lane Snelston Derbyshire	War memorial. c1920. stone, Octagonal stone base with moulded plinth and above an octagonal banded shaft with interlace pattern to south face, Crocketed Latin cross to top and below, at junction with shaft, carved figures of saints set in ogee headed niches with pilasters to sides, on four sides. The south face of the base is inscribed 'To the honoured memory of the men of this parish who fell in the Great War 1914-1918'. The names of the men and another memorial to the Second World War appear on the other sides. Included for group value only.	II	19/07/1985

81327	Oldfield House Cacklehill Lane Snelston Derbyshire DE6 2EP	<p>Formerly The Stanton Arms and attached Stable Block. Public house with attached stableblock. c1828 by L N Cottingham. Red brick with sandstone dressings, plain tile roof with stone coped gables, moulded kneelers and ridge finials, and two large brick stacks, topped by four circular posts with moulded bases and cornices. Similar twin potted ridge stack to stableblock. Coved stone eaves band to house and dentilled brick cornice to stableblock. Two storeys, four bay house with advanced gabled bays to north and south and three bay stableblock to north with advanced central bay. House has central gabled porch with four-centred arched doorcase cut into massive stone lintel and above a stone shield, it also has lancets to each side. To either side of porch are two 3-light recessed and chamfered mullion and transomed windows with drip moulds and leaded lights. Above four 3-light recessed and chamfered mullion windows, also with leaded lights, but drip moulds only to ones in advanced bays. Above in south gable a small lancet window and above in north gable the Stanton coat of arms. Attached to north the stableblock with four-centred brick arch with double studded wooden doors to advanced central bay. Walls to either side have been rebuilt, except for four-centred arched doorcase with studded wooden door to south side of southern bay. Above, three 3-light chamfered mullion windows and over in gable, a small chamfered lancet.</p>	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81328	Brookfield House Cacklehill Lane Snelston Derbyshire DE6 2EP	Former Outbuildings to west of The Stanton Arms Outbuildings. Early C19. Red brick with brick dressings and plain tile roofs, with stone coped gables and moulded kneelers to two storey building. L-range of buildings with single storey cowshed to west attached to north of higher barn. Attached to south end of barn running at right angles to it is stable block with loft above and smaller later stableblock attached to east end. Cowshed has open side facing into the yard, except for short wall with blocked four-centred arched door to south end. The barn to south has two four-centred arched doorcases with stable doors and diamond pattern breathers between. Stableblock to east has two similar doors, that to west with C20 window to its west side, and that to east with four-centred arched window to its western side. Small stables to east have two segment headed doorcases with flanking segment headed windows. Included for group value only.	II	19/07/1985
81329	Ashbourne Lodge Snelston Derbyshire DE6 2EP	Lodge cottage. c1828 by L N Cottingham. Pebble dashed stone with stone dressings and C20 concrete tile roof with large rendered ridge stack, topped by diamond set pots and inscribed to west side of base 'H & EH', Roof also has decorative pierced barge-boards. Single storey and two bays. West elevation has projecting open porch to centre with open pointed timber arches to sides and four-centred arch to front with carved head imposts, wooden gates below and large gable finial over. To south a 2-light cavetto moulded, flat headed window with pointed lights and pierced spandrels. Similar 3-light window to south gable wall with two shields under hoodmould above. North gable wall has similar bay window. Listed for Group Value.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81330	Ashbourne Lodge Snelston Derbyshire DE6 2EP	Walls and gates, c1828 by L N Cottingham. Sandstone and wood with ironwork. Plain sandstone walls with bolection moulded copings, stepped up near central gatepiers. Gatepiers have octagonal bases with fillet to top and octagonal stems, again with fillet to top. Capitals are octagonal to base with pyramidal tops edged by cable moulding. Central gate is made up of grid frame with panels to lower two rows and decorative ironwork to upper two rows. To other ends of the walls are small octagonal stone piers with octagonal domed capitals. Included for group value only.	II	19/07/1985
