Generally available from all good paint suppliers, or for order 'on-line'

**\* Please refer to notes overleaf...**

## NOTES:

- ***Properties covered by an 'Article 4 Direction'***

The approved colours, overleaf, are for the painting and re-painting of stonework, brickwork and render for those properties covered by the Article 4 Direction.

Whilst these are colours which are supported by the Local Planning Authority, Planning Permission **is** required for the painting of any previously un-painted stonework, brickwork and render and for the re-painting of stonework, brickwork and render in the colours shown overleaf or, any alternative colour.

Re-painting the stonework, brickwork and render of your property in the *same* colour as the existing painted finish, does not require any permission.

---

The painting or re-painting of external joinery work is not included in the Article 4 Direction. On an advisory note, the Local Planning Authority would be happy to suggest appropriate colours for your joinery elements, if required.

- ***Listed Buildings***

The re-painting of **any** external element of a listed building (such as stonework, brickwork, render, doors, windows, metalwork, rainwater goods, shopfronts etc.) in an alternative / different colour to its present colour, requires an application for Listed Building Consent.

The painting, **for the first time**, of any unpainted stonework, brickwork or render will also require an application for Listed Building Consent.

The colours on the list (overleaf) can be used as a *starting point* for discussions with the Local Planning Authority regarding possible colours for use on listed buildings.

## **! IMPORTANT:**

If you are in any doubt about the status (listed, un-listed, Article 4 Direction etc.) of your property please contact the Planning Department (Regulatory Services) to confirm its status and to discuss your proposals before undertaking any, external, painting/re-painting works.

*August 2014*
